We manufacture our Junior Pikler Inspired Ladder Pastel Rainbow from lacquered premium sustainable Birch Ply. It is part of the Ligneus PLAY range of products and so assuring you of its quality. Birch Plywood offers an incredibly durable, robust product whilst maintaining a beautifully natural look and feel. We paint the rungs in a very jolly pastel rainbow spectrum - ideal for children's bedrooms and nurseries.

Unlike other Pikler Inspired products on the market this uses 35mm Pine dowels for the rungs. These larger diameters offer a more secure and comfy grip even for little hands and fingers.

Childhood development

The Pikler Inspired range is considered an essential childhood development range. It has been designed to encourage the development of a child's agility and reaction skills. They will learn to stand, climb and vanquish fears at their own pace. It instinctively emboldens and develops strength and stability.

The Junior Pikler Inspired Ladder works particularly well with the Junior Pikler Inspired Triangle however it is compatible with the wider Ligneus PLAY range. Watch them evolve in front of your eyes as their confidence pushes them to new heights. Literally!

The modular make up means all the other parts work seamlessly together. Assault courses, labyrinths, castles....you really are only limited by your imagination.
