9FT BROADWAY OAK DINING TABLE

This 9ft Broadway Oak Dining Table is in a class of its own. At an enormous 9ft by 5ft this table can comfortably seat 14 to 18 people. It is impressive to say the least. As a dining table it certainly offers something special. As a banquet table it can cater for a vast spread and as an executive boardroom table it will stand up to the toughest meetings.

We construct the table from sustainable solid 2 inch thick oak and finish it in oil bringing out the natural colours in the wood. We also build the legs from the same solid 2 inch oak. They are arranged in a V formation for added stability and leg space.

The table stands at 755mm high and at over 200kg this table will be the centre piece in any environment.
