HAND MADE 6.5FT FRAMED RUSTIC KITCHEN TABLE

Welcome to our hand made 6.5ft Framed Rustic Kitchen Table. The Framed Rustic kitchen Table offers a contemporary touch with our rustic designs. It not only sits very comfortable in a rural environment but the stylish coloured frame allows it to be blended within a modern design. The table also stands on contemporary V shaped legs in a matching colour to the edge. The kitchen table echos its rural roots and literally adds an edge to your design. It comes in one further size:

- 8ft Framed Kitchen Table

The standard edge and legs come in a cool modern Anthracite Grey. We can, however, colour match the frame and legs to suit your environment and design swatch. Simply select the colour match option and enter the Pantone reference required. We will be in contact to confirm colour with you your order.

The 6.5ft Framed Rustic Kitchen Table is hand built from solid kiln dried **sustainable redwood**. The table stands at 750mm high and so making it incredibly sturdy.

We hand finish the kitchen table to a high standard. We use a water based food quality lacquer that gives it a traditional look and feel.

Please do get in contact with if you have some bespoke size requirements that our standard sizes cannot fulfil.
