GN1/2 RUSTIC BROWN 2-TIER WOODEN BUFFET DISPLAY STAND 405X290X420

The GN1/2 Rustic Brown 2-Tier Wooden Buffet Display Stand 405x290x420 is an attractive counter top or table top buffet display stand. The slanted shelves have a lip on the lower edge to hold contents on. Their sizing means they can hold our GN1/2 Gastronorm Boxes and consequently are great for building beautiful buffet displays.

Visually Appealing

These stands create particularly appealing visual displays for bread, pastries and other delicious patisserie goods. With the supporting lip you can also use them for books and magazines. These are great versatile displays with plenty of capacity in the 2-tier GN1/2 sizing.

2-Tier Buffet Stand Assembly

Assembly couldn't be easier with this 4 piece solid flat pack:

1. Connect the frame to base with the two fixing screws supplied through the predrilled holes
2. Slide the shelves on until the stoppers meet the frame
3. Start displaying your wares

It's as easy as that!
