JUNIOR PIKLER INSPIRED DESK SET GRETTON GREY

We manufacture our Junior Pikler Inspired Desk Set Gretton Grey from lacquered premium sustainable Birch Ply. It is part of the [Ligneus PLAY range](#) of products and so assuring you of its quality. Birch Plywood offers an incredibly durable, robust product whilst maintaining a beautifully natural look and feel. It is easily folded flat for stowing away. We paint the rungs in our Cotswold Gretton Grey offering a stylish two tone look.

Unlike other Pikler Inspired sets on the market this uses 35mm Pine dowels for the rungs. These larger diameters offer a more secure and comfy grip even for little hands and fingers. The Junior Pikler Inspired Triangle stands circa 790mm high.

Easily Folded Away

The triangle is designed to easily fold away. This is done by using the quick release handles on each of the shorter legs allowing the legs to pivot closed.

Multi Purpose / Multi Function

As education budgets are squeezed and household incomes are pinched our Ligneus PLAY Pikler Inspired Range offers not only the highest quality but also a range of functions. One minute it is a classic activity station and the next a learning centre. Consequently this range becomes not only a financial benefit but also a space saving one.

The nature of the design means that set up can be adjusted to suit the size of the child. It can be formatted to suit the use from a horizontal desk to a slanted painting easel.

Childhood development

The Pikler Inspired Triangle range is considered an essential tool in childhood development. A food safe lacquer offers a natural look and an easy clean finish. It has been designed to encourage the development of a child's agility and reaction skills. They will learn to stand, climb and vanquish fears at their own pace. It instinctively emboldens and develops strength and stability. Watch them evolve in front of your eyes as their confidence pushes them to new heights. Literally!
