JUNIOR PIKLER INSPIRED CLIMBING TRIANGLE PASTEL RAINBOW

We manufacture our Junior Climbing Triangle Pastel Rainbow from lacquered premium sustainable Birch Ply. It is part of the Ligneus PLAY range of products and so assures you of its quality. Birch Plywood offers an incredibly durable, robust product whilst maintaining a beautifully natural look and feel. We paint the rungs with a jolly pastel rainbow spectrum which is perfect for children's bedrooms and nurseries.

Unlike other Pikler Inspired Triangles on the market this uses 35mm Pine dowels for the rungs. These larger diameters offer a more secure and comfy grip even for little hands and fingers. The Junior Pikler inspired Climbing Triangle stands circa 610mm high.

Easily Folded Away

The triangle is designed to easily fold flat for stowing away. This is done using the quick release handles allowing the legs to pivot closed.

Childhood development

The triangle climbing frame is considered an essential tool in childhood development. A food safe lacquer offers a natural look and an easy clean finish. It has been designed to encourage the development of a child's agility and reaction skills.

They will learn to stand, climb and vanquish fears at their own pace. It instinctively emboldens and develops strength and stability. Watch them evolve in front of your eyes as their confidence pushes them to new heights. Literally!

As well as crucial development the Pikler inspired triangle offers endless fun as they learn to explore their imagination.

Stand alone the Junior Climbing Triangle Pastel Rainbow can be easily turn into a den or tunnel. Combined with any of the other components in the Pikler Inspired Range and the Ligneus PLAY range this versatile product transforms into a world of wonder.

The modular make up means all the other parts work seamlessly together. Assault courses, labyrinths, castles....you really are only limited by your imagination.
