LIGNEUS BOARD OIL 100ML

Our Ligneus Board Oil 100ml is Food and Toy Safe when dry. This 100% natural oil is a multipurpose odourless oil and can be used to bring back life and protect chopping boards, butchers blocks and stainless steel worktops hobs and extractor fans. For more information see the Ligneus Board Oil Data Sheet.

All our chopping boards are treated with this oil. It not helps to protect them but also brings out the lustrous colour within the wood. We also use this oil for all our oiled wood products. Click here for more information on wood care

It is also available in the smaller 30ml bottle
