Nilaqua Antimicrobial Surface Spray 500ml - 12 Pack

This Nilaqua Antimicrobial Surface Spray 500ml - 12 Pack offers you greater value for money when demand is higher.

Nilaqua Antimicrobial Surface Spray is a fragrance & alcohol free hard surface / multi surface cleaner. It is effective within 30 seconds and a powerful germ killer (99.9999%). It is used daily in the NHS. This medical grade surface spray provides up to 30 days protection. It works on all surfaces with its non-tainting, food safe and halal-compliant formula.

Nilaqua® is EN1500 approved which means the bugs are tested on real people not just test tubes! EN1500 is the standard required by the NHS. It is effective against all enveloped viruses as defined in EN 14476:2013 + A2:2019 Annex A*. This therefore includes all c-viruses and SARS-CoV-2. It also protects against Monkeypox.

The multi surface cleaner uses the latest Advanced Barrier Technology. This means that Nilaqua not only provides rapid kill against bacteria and viruses, but provides a residual barrier on the surface. This barrier continues to work for at least 30 days after the initial application.
