Childhood development

The Pastel Rainbow Pikler Inspired Triangle range is considered an essential tool in childhood development. A food safe lacquer offers a natural look and an easy clean finish. It has been designed to encourage the development of a child's agility and reaction skills. They will learn to stand, slide & climb to vanquish fears at their own pace. It instinctively emboldens and develops strength and stability. Watch them evolve in front of your eyes as their confidence pushes them to new heights. Literally!

As well as crucial development the junior Pikler triangle offers endless fun as they learn to explore their imagination.
