NURSERY DUAL SENSORY TRAY TABLE

Our Nursery Dual Sensory Tray Table is an incredibly useful addition to any nursery or classroom. This Montessori style table offers both a sensory table and an activity table option. A very sturdy construction made from premium birch ply and finished in a food safe lacquer for easy clean

Activity Table

With the flat cover in place it is an incredibly versatile activity table. The legs rise above the surface offering a lip to help secure contents and prevent pens and crayons rolling off. It works well as lunchtime table for much the same reason and the food safe lacquer finish ensures an easy wipe clean surface.

Sensory Table

Remove the sturdy ply cover and a world of sensory possibility is exposed. The cut out in the centre of the table allows for stainless steel sensory trays or bins to sit permanently beneath the cover. The option of either a sensory tray or bin / sink allows for a variety of requirements from sand and water play to all types of messy play.

Beautifully Compatible

The Nursery Sensory table is designed to work perfectly with the [Nursery Chair](#) and the [Nursery Stool](#). You do have the option to purchase all three as a Nursery Single Sensory Tray Set
