Childhood development

The Pikler Inspired range is considered an essential childhood development range. It has been designed to encourage the development of a child's agility and reaction skills. They will learn to stand, climb and vanquish fears at their own pace. It instinctively emboldens and develops strength and stability.

The slide section measures 700mm long.

The Nursery Climb n Slide is double sided with a smooth slide finish on one side and kidney bean shaped climbing holds on the other. Watch them evolve in front of your eyes as their confidence pushes them to new heights. Literally!

The modular make up means all the other parts work seamlessly together. Assault courses, labyrinths, castles....you really are only limited by your imagination.

- Independently Tested
