# PERSONALISED OAK BOOT JACK

This personalised oak boot jack, often known as a boot pull, is an ideal solution for removing wet and muddy boots and wellies. Simply slide your heel into the recess and pull out your foot. The wooden surround of the boot puller will grip the bottom part of your boot as you lift. After a hard day out in the fields or hiking the hills, take the strain out of removing your footwear and keep your hands clean and dry.

Ideal for everyday use and particularly useful to those who suffer from certain conditions. These conditions might include bad backs, arthritis and Parkinson's disease. It has hole in the "heal" for hanging on a hook or nail to save space when not in use. It is the perfect accompaniment in your porch, boot room, foyer or entrance hall.

## A Great Looking Boot Pull with Ecological Credentials

We manufacture the wooden boot jack from sustainably sourced oak so it is not only ecological but built to last.

Never has the classic wooden wellington boot remover been so attractive, crafted from solid oak we build it to last. It is finished in lacquer which not only enhances the oak but offers an additional layer of protection.

# One Boot Jack......Many Boots, Shoes & Sizes

Our boot jack is great across a wide range of boot types. It's great as a wellington boot remover, a cowboy boot jack or simply just a shoe remover. Its design means that boots and shoes of all shapes and sizes can be easily removed, from little feet to big foot.

# **Customise your Boot Jack**

Why don't you personalise your wooden boot remover as a finishing touch to your home or a great gift for the walker? A personalised Oak Boot Jack could be the perfect gift. Treat yourself or a loved one to a unique personalised boot remover.

Having removed muddy boots where better to store them than our Oak Welly Rack.
