PLAIN NATURAL OAK STACKER BOX RISER WITH CLEAR ACRYLIC LID 450X360X60

The Plain Natural Oak Stacker Box Riser with Clear Acrylic Lid 450x360x60 works perfectly with the Plain Natural Oak Partitioned Stacker Box 450x360x60. It works both as a riser for the box or a box lid itself. It sits flush either underneath or on top of the box. The design of both the boxes and riser lids allow them to stack one on top the other securely.

The riser lid is made up of two constituent separate parts: A Box Riser and a 4mm thick Acrylic Lid. This allows them to be used separately or together. The acrylic lid will also sit perfectly on the box itself

The Riser lid allows taller products to be stored within the box. It offers the box contents protection whilst maintaining the display function.
