RUSTIC OAK TABLET HOLDER

This bridges the gap between modern technology and old fashion style and materials. This oak tablet holder adds the finishing touches to the stylish home office. You can personalise your tablet holder with your own words

The tablet holder measures 200 x 100 x 40cm and being made of oak it provides a very sturdy base for most tablet types. The groove cut measures 18mm square running the width of the holder. It has hole cut in the middle of the groove to allow charging/ connecting cables to be threaded up and a smaller groove running the underside to the rear to allow the cables to thread out. These holes can be seen in the images.

The stylish tablet holder is the perfect partner to the [rustic oak mobile holder](#). These can be purchased together in the [Oak Phone and Tablet Holder Set](#) to save over 20%
