

Job title: Junior Wood Machinist

Salary: £9.00 – £11.00 per hour dependant on experience

Benefits: 20 days holiday + Bank Holidays, pension

Hours: Monday to Friday 7:30am – 5pm, 42.5 hour week – additional & weekend hours are often available

Location: Aston Down Business Park

Duration: Permanent

The Role:

An exciting opportunity to join a young, friendly, successful and ambitious manufacturing company. The junior wood machinist role offers an excellent opportunity to become an integral part of the team on a permanent basis.

You will be working alongside the senior machinist/ production manager as you learn our ranges and develop your skill sets

Responsibilities:

The role will involve a number of tasks fundamental in the machining of wooden products of varying shapes & sizes which include, but not limited to, the use of:

- Cross Cut Saw
- Panel Saw
- Band Saw
- Rip Saw
- Spindle Moulder
- Planer
- 4 Sided planer
- Overhead Router
- Drum Sander

You will also have responsibility for the cleaning of your equipment and general cleanliness & organisation of the production department.

The candidate:

The successful candidate will, ideally, have a track record of wood machining in a professional environment.

Ideally the machinist would have relevant qualifications although this is not essential and previous on the job training would be sufficient.

Experience within a wood manufacturing environment is desirable but not essential.

We are looking for a proactive team player with a “can do” positive attitude and good attention to detail. We’re a dynamic company experiencing strong growth and consequently there is always a potential for career progression as the production department expands.

How to apply:
